

## **Fate of SC, ST, OBC Reservation !**

SC, ST, OBC Bahujans are euphoric that 1) a Bahujan government will come at center and 2) it will restore their reservation (representation). Let us objectively assess these possibilities.

1. Because of EVM manipulation there can not be a free and fair election. All upper caste Non-BJP parties including communists and left parties will only do lip service in verbally opposing election through EVMs. With their covert support, election commission will conduct election through EVMs sparingly introducing vvpap (Voter verified paper audit trail). Therefore, Bahujan parties will not receive sufficient number of seats to form their own government. The EVMs will give significant number of seats to Congress followed by BJP. All Brahminist parties including so called leftist parties will support Congress to form a Brahminist government. As usual, Bahujan parties will unconditionally support Congress government **falsely** labeling it secular.

**In case, the election is conducted through the ballot papers the situation will be more or less same because :-**

1) It is alleged that Ballot boxes are secretly changed with the already prepared ballot boxes at administrative levels to rig the election. Election commission arranges such election schedule that ballot boxes remain in administrative custody for sufficient time with ample opportunity to change actual ballot boxes with the already prepared ballot boxes.

2) RSS will again forge a secret alliance with congress and will see that upper caste votes are selectively diverted to upper caste congress candidates. As a result of such secret RSS alliance with congress, previously BJP was reduced to 2 seats.

3) All upper caste parties including so called communists and leftists have their student and youth wings vigorously chanting Ambedkar and anti Manuist slogans simply to fool SC, ST, OBC, masses to vote for their Brahminist parties. This will harm prospects of Bahujan parties. Similarly, more and more Bahujan parties have emerged who will destroy each others' election prospects giving victory to Arya-Brahmin parties.

4) All Bahujan parties contest significant number of upper caste candidates. If needed, they will support Brahminist Congress government at center.

5) Through CBI threat and blackmail some of the Bahujan party leaders will also support a Brahminist Congress government.

**Therefore, a Bahujan government at center is a rarest possibility particularly, if such a Bahujan government is determined to restore SC, ST, OBC reservation and Sacchar committee report for Muslims.** BJP had pulled down BSP government in Uttar Pradesh who was doing pro-Bahujan work under the supervision of Kanshiram.

### **How a Bahujan Government can come ?**

1. To protect reservation and Indian constitution, SC, ST, OBC and minority masses should pledge to ensure that they should cast vote to Bahujan candidates only who have proved themselves sincere for Bahujan cause. They should not vote upper caste candidates at any cost. SC, ST, OBC Bahujan masses should collectively assert that no upper caste candidate should contest election on SC, ST, OBC party tickets. **Who will educate masses for he same ?**

2. Force Bahujan parties to take clear cut stand that Brahminist Congress and BJP are enemies of Bahujan rights. They simply are Nagnath and Sanpnath. **Who will compel them to ?**

3. Ensure that district administrations do not have a chance to change the ballot boxes / EVM control units and VVPATS and ensure immediate counting of votes. **Do any party has ssuch a fullproof plan ?**

4. Stop supporting Congress by labeling it Secular. Let election be conducted again if no party is able to form a government. In next election Bahujan parties will emerge more stronger. **Bahujan parties that sell party tickets to candidates can not take such a decisive stance.**

In short, above requirements are less likely to be fulfilled because of several contradictions among the SC, ST, OBC and Minority political parties. We can not discuss all of hem here. Therefore, hope for a Bahujan government at center is very rare

possibility.

### **Can Congress Government Protect Reservation ?**

**Congress is a hard core Brahminist party and is not different from BJP in ensuring Brahmin monopoly in every field. They work in collusion and differ only in their approach.**

**Congress will never restore SC, ST, OBC reservation and 200 point roster because Congress itself had formulated 13 point roster system. Congress did not give SC, ST, OBC quota in women's reservation bill.**

In response to Mandal Commission report, Congress had introduced privatization which BJP implemented in full swing. Congress prepared ground for BJP by installing Ram effigy in Babri mosque. Then it was easy for BJP to demolish the Babri Mosque with the full secret consent of Congress. Congress had introduced EVM to prevent Bahujan parties from coming to power and BJP is protecting EVM having collusion with all Brahminist parties including communists and leftists. Congress had formulated law to access everybody's computer. BJP implemented this black law. All anti-people economic policies formulated by Congress are rigorously implemented by BJP. Therefore, it is simply a myth that upcoming Congress government will restore SC, ST, OBC reservation.

### **Will Bahujan Parties agitate ?**

We can not expect anything positive from the actions of SC, ST, OBC Bahujan political parties. They have utterly failed in:- 1) implementing SC, ST, OBC, minority quota in women's reservation bill. 2) in compelling governments to fulfill SC, ST, OBC reservation quota. 3) in resisting privatization in every field 4) in stopping pathetic deterioration of basic primary education. 5) in stopping pathetic deterioration of government health services. 6) in resisting and stopping atrocities on Dalits and minorities. 5) in compelling BJP to declare OBC census figure and so on.

**Mainstream Bahujan political parties and Bahujan organizations never took any decisive position in any of the above issues. So called Bahujan party leaders who get huge money gifts**

from masses for their luxury, are so habituated to live in five star facilities that they can no longer come to streets. Mainstream Bahujan parties and organizations have lost desire to struggle. They take it granted that their caste voters have no alternative but to vote their party alone.

Therefore, present SC, ST, OBC mainstream political parties are more prone to protect Brahmin interest than the SC, ST, OBC, and Muslim interests. BSP leaders had taken pro-BJP stance in genocide of Muslims in Gujrat and had helped Sindhi BJP leader Lalkrishna Advani in Babri mosque demolition cases. Samajwadi party had opposed reservation in promotion and also renamed districts already named after Bahujan liberation warriors. RJD has been continuously supporting Congress unconditionally labeling it secular. Bahujan parties (barring RJD), under Brahmin influence, have voted for 10% reservation for upper castes having annual income of 8 Lakh. They are in collusion with Brahminists in destroying foundations of the Indian constitution.

Previously all Bahujan parties have unanimously supported citizenship bill which prevents Indian citizenship to Bengali Dalits who were forced to migrate to India under the victimization by East Pakistan (Bangladesh) Brahmins converted to Islam. As a result, the Bengali Dalits migrated to India before several decades and their children born in India are being hunted and forcibly pushed into no man's land at India-Bangladesh border. They are killed whichever border they try to enter. Such a brutal vengeance on Bengali Dalits is being continued with silent approval of so called Bahujan parties and organizations.

Victimized Dalits from Gohana and Mirchpur were forced to take refuge in Delhi since last several years. No Bahujan political party helped them. **Not protecting the SC, ST, OBC, Muslim Bahujans simply means supporting Brahminist oppressors.**

**Ask yourself, how many political parties have started decisive struggle against 13 point roster system ? Some political parties have symbolically displayed their presence through their Dalit party leaders with the intention to gain politically in 2019 parliamentary election from this grave situation. More is the public anger more they will benefit. Therefore, they are less likely to**

agitate against 13 point roster. It is not surprising that no Bahujan political party or organization went to supreme court against 13 point roster. They are only blaming government lawyer for not pleading in court. How could you expect Brahminist government lawyer will sincerely present Bahujan case ? Leaders of Bahujan parties and organizations do not really want a sincere struggle. They can never raise themselves above their party interests and agitate for the social cause that involves risks of all kinds.

### **Brahminist Policy against Bahujan Agitation**

1) BJP government is completely ignoring the Bahujan protests against 13 point roster and reservation to upper castes as if the agitation does not exist. Government will not bother no matter how long Bahujans continue their protest. **Arya-Brahmin government hopes that as a result of apathy from some mainstream Bahujan party leaders, their party workers (Bhakts) will not whole heartedly participate in the agitation being carried out by social activists and therefore, the agitation will fade away soon.**

2) Manu-Media more or less as a whole has completely blacked out Bahujan protest. Only newsclick.in and NDTV has shown a small report of Bahujan protest organized on 31 January 2019 at Delhi. Gandhi and Nehru both were hardcore enemies of Mulniwasi Bahujan Samaj. Gandhi-Nehru Bhakt Ravish Kumar and the NDTV so far (dt. 07 February 2019) has no time for discussing 13 point roster.

3. If common masses participate and Bahujan agitation intensify, on Arya-Brahmin behest, police will crush the Bahujan protesters. Upendra Kushvaha's example is recent. As usual, police will file false cases against talented students, youths and employees labeling them Naxalites and will destroy their career. Brahminist governments will not hesitate to shoot and kill SC, ST, OBC, protesters.

4. Sangh Parivar is determined to finish SC, ST, OBC reservation at any cost. Sangh Parivar is fully equipped and prepared for a civil war against SC, ST, OBCs and minorities to establish Manusmriti constitution in India. They have their militant organizations. They already have destroyed autonomy

**and impartiality and brought under their control every institution meant for check and balances.**

### **Solution through People's Struggle**

1. In order to protect reservation and "Indian Constitution", Bahujan masses must depend upon their own collective strength because it is their own battle to avoid Manusmriti rule in India. **Wealthy Bahujan party leaders have no fear of Manusmriti rule in India because, with their whole family they can luxuriously settle themselves in any country they like.** Therefore, this is a do or die struggle for the masses who will suffer from 13 point roster.

2. **Stop unproductive and self-victimizing struggles that weakens Bahujans physically, economically and politically. Our agitation must weaken oppressors and strengthen masses in progression.**

3. **Demonstrate in every Bahujan Basti (ward) to aware common masses and gather "Society patronage" to the agitation being launched. Bahujan masses as a whole can easily support and protect agitation and activists by all means. Prepare common masses of every ward of concerned city to defend court cases economically.**

**Various sections of society should also come out in support of this struggle, particularly Valmiki community which can paralyze the Brahminist government in a few days.**

4. **No rights are achieved unless the exploiters and oppressors are compelled to do so.** In the struggle of great Ayyankali, Dalits got their human rights by shedding their own as well as upper caste blood. Kanshiram use to say that unless you press throat / nose of the oppressor his mouth will not open. **Therefore, there is a need to start non-cooperation movement in every possible area that should compel Arya-Brahminists to restore reservation.**

5. SC, ST, OBC, minority Bahujans must empower themselves by collectively pledging to i) to stop feeding Brahminists oppressors, remove TV dishes from your own houses

ii) stop buying newspapers and magazines published by Arya-Brahminists. iii) Stop viewing movies of Brahminist Bollywood. These movies intentionally show heroes as Brahmins to instill mentality of Brahmin slavery in the minds of the Bahujans. Use internet selectively for entertainment. iv) Stop making Arya-Brahmins rich by not viewing sports dominated by Arya-Brahmin players. v) Stop buying anything from Arya-Brahminists that is not most essential.

6. Create Bahujan alternatives for every thing. Promote Bahujan shops and business. Develop Bahujan economy. Collectively buy directly from Bahujan farmers. (For more empowering actions download the awareness pdf book "**Fake Vs Genuine Struggle for Social Justice**" available free of cost at : <https://www.bahujanmarch.org>).

**Bahujans through their experiences will find many programs that will give results in expected direction. We have complete faith in creativity of Bahujan activists sincere in their social cause.**
